Interior signage comes in many forms to suit a diverse mix of environments and requirements.

From corporate identity to reception signage, illuminated signage, wayfinding systems and statutory health & safety signage.

SL2 provides bespoke solutions to suit the needs and budgets of local and national companies, schools and organisations.

External signage will often be the first contact that a visitor has with an company or business. Exterior signage should welcome, inform, direct and protect, but that vital first impression also speaks volumes about what a company stands for and what it represents. Our signs are designed and manufactured to enhance their environment rather than dominate or impose on a building or landscape.

Etched window vinyl can be used for company branding & to obscure glass. The product is also used in marking for health & safety compliance.

Promotional window graphics can be used for point of sale as they draw the attention of passers by, presenting information about new products or promotions

A variety of colour & photographic images can be used to promote products & services on your windows.

SL2 Signs produce internal and external banners. Manufactured to required size and design, banners are generally used for promotions, events and shows. PVC is most popular but other substrates like mesh, block out and fabrics are also available.

Flags and Flagpoles are a traditional way to announce your presence and make a statement. National or bespoke corporate flags can be supplied.
